

Expand Without Uncertainty

Legal Support for Food and Agri-Food Business Growth

Scaling across borders in the food industry demands strategic legal guidance. From immigration and corporate setup to regulatory compliance and IP protection, our team helps ensure your expansion is structured, compliant, and ready for growth in Canada, the U.S., or the EU.

What We Offer Food Producers, Distributors & Innovators

Immigration Services

- Work permits for executives, skilled workers, and food tech professionals.
- Intra-company transfers and LMIA-based options for business owners and key staff.
- Business immigration support for founders and investor-operators.

Corporate & Regulatory Structuring

- Incorporation and cross-border structuring for food ventures and agri-tech firms.
- Licensing support and regulatory filings for production, import, and distribution.
- Ongoing legal counsel for expansion, partnerships, and compliance.

Contracts, Trade & IP Protection

- Cross-border supplier and distributor contract review and negotiation.
- Food labeling, customs, and trade compliance across multiple jurisdictions.
- Protection of proprietary food technologies, packaging, and brand assets.

Why Food Industry Clients Trust Us

We work with manufacturers, exporters, and innovators in one of the world's most regulated industries. Our legal team brings decades of experience supporting market entry, managing risk, and building cross-border operations with confidence and care.
